

About us

LINGUA NOVA

was founded in December 1970 and has constantly developed ever since.

OUR GOAL IS TO

offer you an effective language training through which you can optimally advance your language skills in areas of speaking, writing, listening and reading. Individual guidance of our students is important in both our one-on-one and group courses.

WE ARE BIG ENOUGH,

to offer you a rich variety of courses.

BUT ALSO SMALL ENOUGH

to meet the individual needs of our course participants and business customers.

IN OUR LANGUAGE STUDIO YOU ARE GOING TO FIND

a relaxed and friendly atmosphere and a pleasant learning environment. Here, you will be able to learn, deepen or refresh your knowledge of a chosen language with fun, delight and no fear or inhibitions.

OUR TEACHING METHOD

rests upon the principle of LEARNING A LANGUAGE BY SPEAKING (one only learns to walk by walking, too). We achieve this goal by using a KOMMUNIKATIV- METHOD based upon an interactive and practical language training. Grammar, for example, is not drilled but acquired through multifaceted conversation settings.

OUR TRAINERS

are native speakers (with the exception of Latin!). They all have extensive academic credentials and teaching experience of many years. Through continued education they are familiar with the newest didactic findings and have received additional qualifications in various subject areas.

LEARNING AND HAVING FUN

s the right mixture in order to reach your language main goal- a confident use of a foreign language at work, at home or

abroad.

YOUR GOAL IS OUR GOAL
